

Project 1 - SOS Signal with LED

Components: Arduino UNO, 1 LED, resistor

Description: LED blinks Morse Code for SOS

– Group 1 –

- a. Sonu Kumar
 - b. Shivani
 - c. Pallavi
 - d. Mansia
 - e. Devesh
-

Project 2 – Temperature Alert

Components: Arduino UNO, TMP36 temperature sensor, LED

Description: LED glows when temperature rises above a threshold.

-Group 2-

- a. Govind
 - b. Simran
 - c. Mayuri
 - d. Krishna
 - e. Divya
-

Project 3 – Motion Detector

Components: Arduino UNO, PIR sensor, Buzzer

Description: Buzzer activates if motion is detected.

-Group 3-

- a. Pooja
 - b. Lipsa
 - c. Akanksha
 - d. Anish
 - e. Nishant
-

Project 4 - Ultrasonic Distance Indicator

Components: Arduino UNO, Ultrasonic Sensor (HC-SR04)

Description: Measures distance and displays it on the Serial Monitor.

-Group 4-

- a. Samar
 - b. Ritu
 - c. Princy
 - d. Abhishek
 - e. Jugnu
-

Project 5 - Morse Code Generator

Components: Arduino UNO, Button, LED/Buzzer

Description: Button press generates Morse code as blinks or beeps.

-Group 5-

- a. Savitri
 - b. Pratiksha
 - c. Debraj
 - d. Rewata
 - e. Supriya
-

Project 6 - Reaction Time Game

Components: Arduino UNO, LED, Push button

Description: LED lights up randomly → player presses button → Arduino measures reaction time.

-Group 6-

- a. Fehzan
 - b. Diksha
 - c. Mausami
 - d. Badal
 - e. Rohit
-

Project 7 - Fire Alarm System

Components: Arduino UNO, TMP36 sensor, Buzzer, LED

Description: If the temperature goes high → buzzer + LED alarm.

-Group 7-

- a. Ramesh
 - b. Binit
 - c. Raja
 - d. Saniya
 - e. Samuel
-

Project 8 - LED Pattern Generator

Components: Arduino UNO, 8 LEDs

Description: LEDs blink in programmed patterns (chaser, alternate, wave).

-Group 8-

- a. Vansh
 - b. Juliyani
 - c. Yogesh
 - d. Jayesh
 - e. Orfa
-

Project 9 – Password Entry with Button

Components: Arduino UNO, 3 Buttons, LED

Description: Enter correct sequence → LED ON; wrong → stays OFF.

-Group 9-

- a. Shivani
 - b. Adarsh
 - c. Shristi
 - d. Sana
 - e. Samba
-

Project 10 - LED Flasher with Variable Speed

Components: Arduino UNO, LED, Potentiometer

Description: Potentiometer controls blinking speed of LED.

-Group 10-

- a. Manisha
 - b. Sunaina
 - c. Anita
 - d. Samir
 - e. Satyam
-
