1.3 INTRODUCTION

Hello , I am Anjali Kerketta from UG first year I'm going to introduce my project topic, and the project topic is " Protein Count

Protein is an essential nutrient for our body. It helps us to build our muscles and helps in muscle recovery. It creates enzymes and hormones, supports your immune system, maintains fluid balance, and provides structural support for your cells, organs, hairs, nails.

Key function of Protein

- **Building and repair:** Restores damaged muscle fibers, organs, skin, hair, and nails.
- **Immune health:** Forms antibodies that fight off infections and illness.
- **Metabolism and digestion:** Powers chemical reactions and creates digestive enzymes.
- **Satiety:** Regulates hunger hormones to keep you full longer.

Good Sources of Protein

- **Animal foods:** Meat, fish, eggs, poultry, and dairy products like milk and paneer.
- **Plant foods:** Lentils (dal), beans, chickpeas (chana), tofu, nuts, and seeds.

This project helps us to analyze the protein count in our daily life. How much protein we intake in a whole day.

1.4 OBJECTIVE

- To understand the importance of protein in our diet.
- To find how much protein is consumed by the people in their daily life.
- To compare protein consumption between boys and girls.

1.5 METHODOLOGY

For this analysis, data collected from the group of students through a questionnaire .

A. DATA COLLECTION

- Collect data from 20 girls.
- Data collected to ask questions face to face.
- Response recorded and drawn in excel.

B. DATA PROCESSING

- The response could be arranged in separate sheets. Calculate average and compare it.
- Calculate also median and mode.
- Draw it on a graph and analyze the graph.

Analysis:-

We analyzed from this project that boys intake more protein than girls.

1.8 Who did what

- 1. Anjali:- collect the data from 10 students and make the whole ppt.**
- 2. Suhani:- collect the data from 10 students and draw it on excel.**

3. Namchei:- collect data from 10 students and write the loss of protein.
4. Pushpendra:- collect the data from 10 students and write the introduction.

1.9 APPENDICES

● APPENDICES - A QUESTIONNAIRE

1. NAME
2. WE ASKED THEM WHAT THEY EATEN IN BREAKFAST, LUNCH AND IN DINNER.
3. HOW THEY DO FEEL AFTER THE WHOLE DAY.
4. (ENERGETIC, TIRED/LOW ENERGY, HUNGRY, LOW CONFIDENCE.)
